PROFESSIONAL SUMMARY

Result-oriented 3rd-year Bachelor of Science in Information Technology (BSIT) student majoring in Business Analytics, currently pivoting into Full-Stack Development. Proven track record with over two years of professional experience executing end-to-end web projects within freelance and contract environments. Highly dedicated to bridging the gap between data-driven insights and functional web architecture to build scalable, high-performance digital solutions informed by analytical rigor and robust business logic.

TECHNICAL SKILLS

Core Focus & Architecture: Full-Stack Development, Frontend Architecture, Responsive Web Design, Business Analytics

Programming Languages: JavaScript, Python, SQL (MySQL)

Tools & Frameworks: Tailwind CSS, Microsoft Power BI, Git & GitHub

Hardware & Emerging Tech: Arduino, Edge Impulse (Edge AI / TinyML), Prompt Engineering (ChatGPT)

PROFESSIONAL EXPERIENCE

Frontend Developer

Jan 2024 – Present (2 yrs 5 mos)

Freelance · Contract | Remote

- Execute comprehensive end-to-end web development projects, ensuring precise synchronization between client requirements and cross-platform responsive web design.
- Incorporate complex business logic and data-driven insights into architectural frameworks to deploy highly scalable user interfaces.
- Apply technical analytical rigor to system performance and design implementations while actively restructuring codebases for full-stack compatibility.

EDUCATION

Bachelor of Science in Information Technology (BSIT)

Expected Graduation: 2027

[Insert University Name] — 3rd Year Undergraduate

- **Major:** Business Analytics
- **Core Focus:** Actively prioritizing professional certifications and technical field experience alongside academic studies to achieve industry readiness.

LICENSES & CERTIFICATIONS

- **IT Specialist - Data Analytics** — Pearson / Certiport (Issued: May 2026 · Expires: May 2031)
- **Introduction to Modern AI** — CISCO
- **Six Sigma White Belt Certified** — Management and Strategy Institute
- **Microsoft Power BI Professional Certification** — FIT Academy
- **Introduction to Data Analysis** — Coursera

- **Introduction to Python** — DataCamp
- **Artificial Intelligence & ChatGPT Training Certification** — Department of Information and Communications Technology (DICT)

PROFESSIONAL AFFILIATIONS

- **Member**, Junior Philippine Computer Society (JPCS)
- **Official Delegate & Participant**, JPCS: Future Mode Technology Seminar
